#### How to Pair the Dongle & Headset Bluetooth Connection

**E-Pro [SKU: 225809]**

#### **Bluetooth Troubleshooting Guide:**

- Step 1: Make sure the headset is turned off.
- Step 2: Insert the dongle into the USB port.
- Step 3: Bring the headset next to the dongle to pair. On the headset, press & hold the 'Power Button' for 8 seconds until the LED light flashes rapidly and then let go.
- Step 4: On the dongle, press & hold the 'Pairing Button' until the dongle LED light flashes rapidly and then let go.
- Step 5: Within a few seconds, the LED on the dongle and the headset will turn solid. The headset is now paired.

**Note:** Retry the steps again if the headset failed to pair.
