

# ATRIX COMPACT UV-C SANITIZER CASE USER GUIDE

## Need Help?

Have any questions or comments? Need help getting set up? Contact us at <https://care.gamestop.com>

## What's Included

- UV-C Phone Sanitizer Box
- Micro USB cable (this cable does not transfer data)

## Sterilizing Setting

- Place the UV sanitizer on a sturdy flat surface.
- To get started, use the USB cable provided to plug in your sterilizer box and power on.
- Place the item you would like to sterilize inside of the sanitizer and close the lid.
- You can sanitize items like cellphones, earbuds, jewelry, makeup tools, or razors.
- Press the sterilization button one time, you will hear a beep and a green light will turn on to indicate that the 3-minute time period has begun.
- you will hear 2 beeps when the sterilization process is complete. Press the sterilization button once during sterilization to stop the process.
- Note: If you open the lid while sterilizing it will automatically switch off and the process will need to be restarted.

## Wireless Charging

- The box is equipped to wirelessly charge phones that have a wireless charging functionality. The Red light will turn on to indicate that charging is in progress.
- when the wireless charging function is not working, the Red light indicator will flash three times when powering on, make sure that the lid is not obstructed and can be fully closed when trying to use these functions.

## Bacteria tested for killing rate:

- Escherichia Coli ATCC 8739 -----99.5%
- Staphylococcus Aureus ATCC 6538----99.5%

Model: DF02 FCC ID: 2AWXP-DF02  
 Input: Micro DC 5V/2.1A Wireless Charging output: 5W  
 UVA Wave length: 365nm UVC Wave length: 254nm 5UVC + 2UVA Power: 3.6W  
 Disinfection: 5pcs of UVC light and 2pcs of UVA light.  
 Foreign Object Detection Status: Red flashing light. This indicates pieces of metal or other materials on the Qi charging pad that may cause overheating and should be removed immediately.

### Important Safety Instructions

**WARNING** When using this product, basic precautions should always be followed, including the following:

Read these instructions carefully.

All cautions and warnings should be followed.

Protect equipment from humidity.

Do not use chemical detergents to clean your device, use a soft dry cloth.

To avoid damage from electrical peaks unplug the device when it is not in use.

If one of the following situations arise, equipment has to be checked by qualified service personnel:

- Liquid has penetrated into the equipment.
- Equipment has been exposed to humidity
- Equipment has been dropped and/or is damaged.
- Equipment has obvious sign of breakage.
- Equipment does not work well or you cannot get it working according to user's manual.

SAVE THESE INSTRUCTIONS

This device complies with Part 15 of the FCC rules. Operation is subject to the following two conditions: 1) this device may not cause harmful interference, and 2) this device must accept any interference received, including interference that may cause undesired operation.

**Warning:** Changes or modifications to this unit not expressly approved by the party responsible for compliance could void the user's authority to operate the equipment.

**NOTE:** This equipment has been tested and found to comply with the limits for a Class B digital device, pursuant to Part 15 of the FCC Rules. These limits are designed to provide reasonable protection against harmful interference in a residential installation. This equipment generates, uses and can radiate radio frequency energy and, if not installed and used in accordance with the instructions, may cause harmful interference to radio communications.

However, there is no guarantee that interference will not occur in a particular installation. If this equipment does cause harmful interference to radio or television reception, which can be determined by turning the equipment off and on, the user is encouraged to try to correct the interference by one or more of the following measures:

- Reorient or relocate the receiving antenna.
- Increase the separation between the equipment and receiver.
- Connect the equipment into an outlet on a circuit different from that to which the receiver is connected.
- Consult the dealer or an experienced radio/TV technician for help.

This equipment complies with FCC radiation exposure limits set forth for an uncontrolled environment. This equipment should be installed and operated with minimum distance 20cm between the radiator and your body. This transmitter must not be co-located or operating in conjunction with any other antenna or transmitter.
